Eluminations💡

I'm excited about your upcoming senior portrait experience with E-Illuminations and that you are officially about to

become one of our #elluminations seniors 🤩

You will find lots of information about outfits, hair, makeup, props, and more!

We LOVE creative ideas, and we welcome your vision for the session.

Questions? Send us an email!

# STYLING Tips & Planning

**Plan Outfit(s).** Style every look from head to toe including shoes, undergarments, and jewelry/props.

Select Outfit(s) from Clothing you know, love, & feel your best in! There is no need to buy a whole new wardrobe ... but if you do ... please try the clothes on BEFORE your session, not at it! 😊

**Play with Layers.** A denim jacket, blazer, or open button-down shirt can help pull a look together.

Plus layers can be added and removed ... increasing the number of options/looks for your photos.

**Simple Lines.** Sometimes simple lines in your clothing (ex. neckline) make the subject the center of attention.

**Plan Ahead with Hair.** Everyone's hair is different, but many haircuts look their best 1 to 2 weeks after the initial cut. Planning to shave? Do so the day of your photoshoot, be careful with nicks!

**Take Care of your Hands.** Your hands will show in many poses ... be sure they are camera ready!

**Pick the Right Shoes.** Be sure to not only have the match your footwear to your outfit(s) but is appropriate for your location choice ... high heels at the beach might not be the best idea! 😬

**Playing with Solid Colors?** Think natural, solid colors like blues, greens, grays, or whites ... solid colors can work great for close-ups ... and far away too!

**Playing with Patterns?** Maybe it's a pattern on top and a complimentary color on the bottom ... or a fantastic pair of 'fancy pants' that highlight your best feature 😊 ... just make sure you feel confident in them!

**Envision your Perfect Jewelry and Accessories.** A simple necklace and/or earrings, a special watch (maybe skip the iWatch, depending on your tan!), we recommend selecting jewelry that means something and carries a memorable place in your heart.

**Think Natural and Complimentary Makeup.** Avoid the temptation of going overboard with one product or style, and importantly try to AVOID products with SPF in them ... SPF is naturally reflective and can cause unwanted shine on your face.

**Bring Translucent Powder or Oil Blotters.** While in real life a bit of shine can give you a "dewy glow", it can unfortunately look oily on camera.

**Personalize your Session with Props.** Have fun and show-off your personality in your portraits. Think sports equipment, musical instrument(s), your hobbies, or even a pet ... your imagination is the limit!

**Make Sure your Clothing is Pressed & Clean.** Your clothing should be ironed and if you're worried about wrinkles, bring them and change at your session!

**Chill and Have Fun!** When you are happy and enjoying yourself, it will shine through your photographs ... that's our goal and we are here to make it happen!
